Stop The "Unfinished Revolution" Of Death!

Efforts to roll out legalised abortion-on-demand across the globe appear to be intensifying - more especially in nations that have conscientiously protected the unborn baby's right to life.

Since the Trump administration reversed US tax-payer funding for international abortion services, the godless governments of Canada, the Netherlands and Sweden have pledged tens of millions of dollars in funding to promote the global mass murder of the most innocent and defenceless.

Apparently, South Africa will be used as a launch-pad to advance the global abortion agenda with particular focus on African nations that have steadfastly remained pro-life.

The Department of Social Development in partnership with several local and international pro-abortion groups will host a four-day conference at Rhodes University in Grahamstown in July 2018 ominously called "[Abortion & Reproductive Justice – The Unfinished Revolution.](#)"

The conference stated aims is to "significantly contribute to the vision of unfettered and universal access to safe abortion and reproductive justice for women the world over."

"Safe" abortion is a lie. In every abortion, a baby dies and its mother is scarred for life.

US billionaire, [George Soros is backing pro-abortion groups across the globe](#) to advance his twisted "sexual rights" ideology. No doubt the Grahamstown conference is funded by him.

I have written to Lila Rose of "[Live Action](#)" as well as Alveda King - the niece of Dr Martin Luther King - both powerful pro-life voices in the US to help us host a Pro-Life Summit in SA in Aug 2018 to counter this assault on life. I have met both women who are keen to help the cause in SA.

The pro-death movement – euphemistically called, "pro-choice" rely on lies, deception and distortions of the truth to justify the hideous slaughter of millions of innocent lives.

Thankfully, the Trump administration is [pushing back](#) against the abortion holocaust in the US and at the United Nations. Tragically, however, liberal European nations are taking up the slack.

In South Africa, Cheryllyn Dudley, the courageous ACDP MP has introduced a [Private](#)

[Members Bill](#) in Parliament to amend the Abortion Act that will enable pregnant women to make fully informed choices through counseling and ultra-sound scans. This will reduce rampant abortions in SA.

Opposition to out-of-control abortions in SA has been weak and inconsistent. There are a few brave and faithful groups fighting for the sanctity of life. But they have little support.

The proposed abortion conference in Grahamstown in July 2018 – backed by the SA government is a dire threat to life. We must reverse the culture death in SA for our future generations sake.
