### ***South Africa Stands On The Brink Of A New Stable, Peaceful & Prosperous Era!***

The two largest political parties in SA are currently embroiled in a leadership crisis brought on by moral ambivalence. Both parties support and advance wicked policies in the nation.

The ANC and the DA promote liberal secular humanist ideologies that violate God’s moral laws to appease the demands of a vocal minority. As a result of their rejection of God’s Word, both political parties and all who follow their example, have sown the seeds of their own destruction.

The ANC’s top leadership is locked in [emergency meetings](#) to find ways to end Jacob Zuma’s disastrous presidency - a presidency that brought the nation to the brink of economic collapse.

Under President Jacob Zuma's leadership, the once world-renowned liberation movement has functioned more like organised crime than a ruling party of a major democracy. Significantly, the ANC repeatedly and gleefully aided and abetted Zuma’s destructive legacy.

The official opposition, [DA is also investigating corruption](#) within its ranks in the City of Cape Town. The DA’s mismanagement of the city’s water crisis has exposed major leadership failures.

Tragically, both the ANC and DA enjoy the support of millions of Christian citizens despite the warnings of Scripture. The question is; considering the political and moral chaos of the past five years, will Christian voters swing towards Bible-based political leadership in 2019?

Thankfully, there is some good news amidst the gloom. The Cooperative Governance & Traditional Affairs Portfolio Committee (COGTA) in Parliament has rejected the CRL Commission’s proposal to grant it constitutional oversight powers to license and regulate religious groups in South Africa.

Following presentations from a wide spectrum of religious bodies, COGTA concluded that religious groups must seek its own solutions to the current challenges it faces in the country.

The CRL Commission investigated abuses in several Churches in SA and proposed a complex structure to license and regulate religious institutions to combat exploitation.

However, the abuse of members continue in certain churches by alleged “prophets,” and “apostles.” The legitimate Church must urgently address this appalling perversion and manipulation of the Church’s true mandate to restore its integrity and credibility.

Defending religious freedoms in SA is a critical endeavour. However, fighting for religious freedoms while ignoring the growing lack of integrity and credibility in the Church is misguided.

The Bible believing praying Church is the most powerful organism in the country. It has the potential to guide and influence every sector of society for the greater good of all citizens.

The Church of Christ must boldly lead in times of national turmoil. But a Church preoccupied with its own crisis is compromised. That is why the Church must confront its failings urgently.

Bold moral leadership is desperately needed in SA. The Church has it. Its time to lead!
