## WATCHMEN ON THE WALL

*“Family Policy Institute exists to defend the family and advance Biblical values in Parliament, the media and general society. Please support this vital cause by donating today.”*

### ***If Your Biblical Values Are Not Well Represented In The Corridors Of Power - You Will Lose It!***

I write this newsletter from Durban, KZN where I kicked off my countrywide "Watchmen on the Wall" Pastors Briefings entitled, "Reshaping South Africa's Future" - to update key leaders.

SA's spiritual leaders hold the key to unlock the nation's God-given destiny. Spirit-led Bible believing Pastors have the potential to transform our country into a light to the nations.

However, despite SA's great potential, the country has been lurching from one political crisis to another because of a lack of critical information and discernment of our political situation.

Over the past decade, millions of Christian citizens – from all walks of life - have faithfully gathered across the country in heartfelt repentance and prayer for the nation.

We prayed and interceded for godly political leaders of integrity when our country was brought to the brink of economic disaster - as a result of rampant corruption and maladministration.

Although there are improvements in governance, [corruption, fraud and the theft of public funds persist](#). The gross mismanagement of state resources is also a major threat to prosperity.

South Africa needs decisive change if it has any hope of fulfilling its true promise and potential. If we keep doing things the way we always did, we will have much of the same.

The [revised "Hate Crimes" Bill](#) has been tabled in Parliament recently. Despite certain amendments, this Bill presents a grave threat to religious free speech and expression.

Many analysts agree, the "Hate Crimes" Bill is unnecessary and will create more social conflict than it will solve. Significantly however, sexual rights activists are the main instigators behind "Hate Crimes" legislation. Their primary goal is to criminalise the Scriptures that condemn sexual sin and prosecute and imprison Pastors who uncompromisingly teach God's Word.

In addition, there are a number of policy proposals championed by the ruling party that will seriously undermine marriage and the family and further destabilise South African society.

The facts are social public policy in SA is influenced more by well-financed foreign lobby groups than by the citizens of this country. We appear to be remote-controlled governed by the UN.

In fact, the vast majority of South African's have opposed abortion-on-demand, same-sex "marriage," liberal laws on pornography, decriminalised prostitution etc. However, the ANC ruled government have mostly ignored the submissions of tax-paying citizens and have implemented the [agendas of UN agencies](#) and foreign-funded liberal groups in South Africa.

The remarkable decline in morality over the past two decades has been devastating to marriage, the family and society in general. Tragically, vulnerable children have suffered the most.

The questions we must answer are, "Who genuinely represents your and my Biblical values and principles in the corridors of power?" And "If we want a more honest, trustworthy and righteous government, how do we make that a reality in the General Elections in 2019?"

South Africa will not be transformed politically and socially - by chance. If you and I, including our spiritual leaders do not plan for a more God-honouring nation, we will not see it.

Do not believe the deception that Christians must stay out of politics. The reality is, politics will not stay out of your personal life, your family, your convictions and beliefs or your Church.

We have prayed and asked God to intervene in South Africa. God has heard our prayers. However, you and I are the answer to our prayers because we are His ambassadors in this nation.

It is time for you and I to stand together to advance God's kingdom in South Africa!

Standing
