Prayer Won't Help. But Prayer Followed By Corresponding Action Will Change SA!

Media reports estimate the ANC ruled government misused a staggering R75 billion of taxpayer's money on fruitless and wasteful expenditure in the 2017/18 financial year.

This while ordinary South Africans are reeling under spiralling food, transport and essential services costs. The SA Government is making citizens pay dearly for its corrupt practises.

Auditor-General, Kimi Makwetu's report on government financial mismanagement exposes a [shambolic state of affairs](#). For example, the Water & Sanitation Dept logged R6.156 billion in irregular expenditure. Nomvula Mokonyane, the Minister responsible for crippling this department was rewarded with a ministerial post in Communications.

The finances of the Independent Development Trust (IDT) are in such disarray – the Auditor-General could not express an opinion on its assets and expenditure. R1.9 billion is in question.

Reports also suggest the National Energy Regulator of South Africa (Nersa) has given Eskom the [green light](#) to increase electricity tariffs to recover the billions lost to massive corruption, theft, fraud and gross mismanagement at the embattled power utility.

Honest, hardworking citizens will face tough economic conditions over the next year. However, public officials don't appear to suffer the same economic hardships. Senior government officials still fly business class, stay in five star hotels and drive expensive luxury brand vehicles.

This is governance ANC style. The ruling elite makes empty promises while the economy tanks, unemployment soars and townships burn. The ANC is so inept that it organises public marches to protest its inability to provide service delivery to the people that voted it into power.

Evidence emerging from the State Capture and the SARS Inquiries leave little doubt the ANC is not capable of governing the country and must be roundly rejected at the polls next year.

I am also monitoring the “Hate Speech & Hate Crimes” legislation. Presumably, Parliament is holding back this controversial and dangerous Bill until after the General Elections.

The Bills that criminalise parents for spanking their own children and legalises Euthanasia and the amendment that compels Christian state marriage officers to officiate at same-sex “weddings” will all languish on the back burner until the ANC hopes it will return to power in 2019.

Unsurprisingly, the EFF top leadership is facing numerous [allegations of corruption and sexual exploitation](#) within the party from former members who apparently resigned in disgust.

The ANC, DA, EFF and COPE will attempt to manipulate the Christian voter to empower them to further their anti-life, anti-family and anti-religious freedom policies.

In other words, Christian voters will be deceived to empower political parties that deliberately undermine the sanctity of life, destabilise faith and family and erode religious freedoms.

Tragically, all the prayer meetings in the world can't change the self-defeating behaviour of Christians who nullify their own prayers (for Godly Governance) by contradictory actions.

The Scriptures declare, “My people perish for lack of knowledge” Hosea 4:6. Notice, the Scripture does not say, God's people perish for lack of prayer, money or effort - but knowledge!

When Christians voluntarily elect corrupt and wicked men and women into positions of authority – they become complicit in the social and economic degradation that must follow.

Prayer without corresponding action is fruitless - regardless of numbers. Prayer followed by meaningful action is powerful and transformative! Value your Vote – Vote your Values!
